

VACANCY

ATW Technical Advisor & Trainer

Job title: ATW Technical Advisor & Trainer
Employment Type: Full-Time
Reports to: Global Business Developer ATW/EQC – Head of Technical/Training
Location: Worksop site with Worldwide Travel

About Pandrol, our values and the role

Employing over 1700 people worldwide Pandrol maximizes railway availability, safety and sustainable lifetime value. We define the industry standard for rail fastening systems and aluminothermic welding. We've created rail infrastructure in more than 100 countries. Our capabilities extend to manufacturing castings and plastics, track electrification, and creating equipment for track construction, fastening installation, and welding.

We expect our employees to operate in line with **Pandrol's Core Values**:

We are accountable, we show courage, we are committed, and we care. These core values are shared principles we already uphold and want all our employees to be guided by.

Purpose of the Role

An ATW Trainer and Technical Advisor with extensive Aluminothermic Welding experience. This role will include meeting all our valued clients, solving technical problems, developing new products, and conducting Aluminothermic Welding Training. The role will be based in Worksop UK, but there will be extensive travel Worldwide.

Key responsibilities

- Customer Support & Training on all Pandrol Welding products.
- Customer visits throughout the year.
- Assisting in new developments for the process when required.
- Promoting the use of the Pandrol ATW process and all associated equipment.
- Cross sell other Pandrol products (FS, EQC, TCS, SRS etc.).
- Provide technical advice and support whenever necessary.
- Getting involved with all aspects of the business.
- Managing all activities in the training center.
- Keeping all training records and procedures up to date.
- Assist with audit protocols throughout the year.
- Assisting Pandrol France when required for their training needs Worldwide.

Knowledge, Skills and Experience

- Extensive ATW Certificated Experience.
- PLA Welder Certification is Mandatory.
- Thermit Welder Certification preferred but not essential.

This vacancy is advertised in accordance with the Delachaux Group Employment Policy and Code of Ethics (i.e. regarding familial employment and potential geographical mobility). It is subject to any national employment regulations and any local Pandrol recruitment practices, relevant to the advertised location.
